WILDFIRE SAFETY:

GAS STOVE & LANTERN TIPS

FIRELESS fun HELPS protect the outdoors!

When fire bans are in place for safety purposes, gas and propane stoves make great campfire or charcoal grill alternatives. Here are a few tips:

Cook on a gas stove and enjoy food by a lantern or flashlight.

Remember utensils, pots, pans, and oven-mitts.

Use on a flat surface away from vegetation and wind.

Allow lantern and stoves to cool completely before putting away.

NEVER use damaged or altered fuel canisters. Bring extra fuel.

Bring ready-to-eat food.
