Learn how to identify native plants at the seed stage and practice sustainable seed harvesting and cleaning within Maricopa County's desert ecosystems. This hands-on activity supports ecological restoration by collecting resilient native seeds that help restore park landscapes.

Please bring: work gloves, water, and a snack. Wear long sleeves, pants, and closed-toe shoes.

Ages 13 plus: Participants ages 13 to 17 must be accompanied by an adult or have a signed waiver and transportation provided by an adult.
