

MARICOPA COUNTY PARKS AND RECREATION DEPARTMENT

WEATHER WATCH

- Always monitor the weather through local and national media as well as the weather stations placed around the lake.
- If there is a storm on the horizon, head back to the dock to get your boat out of the water.
- Do not wait until the storm hits the lake to seek shelter. If you are unable to make it to the dock in time, seek shelter in one of the coves.
- Do not camp or park your vehicle along washes as potential rising waters could trap you.
